ERASING THE DISTANCE[®]

STRATEGIES FOR LEADING GLOBAL VIRTUAL TEAMS

Workshop Goal:

The focus of this advanced workshop is to provide team leaders with tools to develop new strategies in leading globally dispersed teams, to improve their communication performance, and ultimately increase the success of their teams' initiatives. Participants gain skills to strategically influence internal and external stakeholders at all levels. Cultural differences and different reporting structures are addressed.

Audience:

Team leaders who have some experience leading globally dispersed teams and want to become strategic and collaborative in their management methodology.

Additional Workshop Benefits

Participants will also receive reusable, electronic assessments and tools. These resources help gauge the progress of global teams and erase the distance by implementing effective leadership and team practices.

World Wide International Leadership Partners (WWILP)

World Wide International Leadership Partners is a subsidiary collaboration of two high performance organizations—Partners in Development and FYI International USA. Both firms are located in the Chicagoland area and serve clients from a variety of industries including healthcare, financial services, pharmaceuticals, insurance, and not-for-profit organizations.

WWILP is a full service provider of performance improvement products and services and offers a broad range of solutions to help individuals and companies improve their performance. Their experience includes designing, developing and delivering customized training programs for Fortune 500 clients including Wells Fargo, C.H. Robinson, and The Principal Financial Group. Program topics have included leadership and management development, sales, and service delivery. They have delivered blended learning courses to participants in the U.S., South America, Europe and Asia.

Workshop Leaders

Lee Johnsen and Stella Kalfas, of WWILP, have extensive experience working with international audiences. Both Lee and Stella have consulted and trained diverse individuals inside and outside of the U.S. Their facilitation skills have been highly rated by workshop participants and their collective experience in consulting and teaching international audiences makes for a winning team.
